

S17 50-50 | Flat Lid Trunking Gusset Flare

Electrix® Flat Lid Trunking Gusset Flares, in 304 - V2A - 1.4301 stainless steel, can be used to join our trunking to a machine or enclosure. Our flares offer unrivalled quality & aesthetics.

Fewer coupling screws are required due to our factory fitted couplings, making the installation easier to install and easier to clean.

This satin (brushed) finish flare is compatible with both our 50 x 50 (W x H mm) Flat Lid Trunking System & Lighting Trunking System.

Our unique system features a cover plate over each lid joint which reduces the ingress of foreign matter.

UL Listed.
